

Hello All!

July is here along with exciting music from our neighborhood music school, [Notes n' Beats](http://www.notesnbeats.com) (www.notesnbeats.com), in Ashburn. We will be welcoming Ms. Kari, an excellent singer to level up our musical sessions.

You are welcome to take PRIVATE lessons with Notes n' Beats music school after school hours either on our own premises or at their studio in Ashburn. Send email to [info@notesnbeats.com](mailto:info@notesnbeats.com) for private lessons, you can also get a chance to participate in their recitals.

Here are some musical activities that your children are engaged in, during their music class.

**5 Little Ducks:**

This song continues to be the most requested song by the kids. We obliged, and needless to say, the kids are having limitless fun.

**"John Jacob Jingleheimer Schmidt":**

John Jacob Jingleheimer Schmidt challenged the musical prowess of our kids since the song is typically repeated several times; sometimes each repetition may get louder or softer. Our kids needed one more month to perfect this song and we are giving them the same to practice hard.

**If you're Happy and you know it:**

Our evergreen hit number, this song continues to be a hit with children and adults alike !

**Sing-Along:** Kids get to list out their favorite songs to sing during these fun interactive sessions.
