

Hello All!

November is here and we are already starting preparations for our Christmas recital. We have some exciting music from our neighborhood music school, [Notes n' Beats](http://www.notesnbeats.com) (www.notesnbeats.com), in Ashburn. We will be welcoming Ms. Kari, an excellent singer to level up our musical sessions.

You are welcome to take PRIVATE lessons with Notes n' Beats music school after school hours either on our own premises or at their studio in Ashburn. Send email to info@notesnbeats.com for private lessons, you can also get a chance to participate in their recitals.

Here are some musical activities that your children are engaged in during their music class.

Jingle Bells

Christmas is incomplete without Santa Claus AND everyone's favorite Jingle Bells. All kids are so excited to sing this familiar song.

Frosty the Snowman

All 'Frozen' fans will love this snowman themed song even if it's not about Olaf.

Santa Claus is Coming to Town

Some songs have a little bit of magic. This is definitely one such number. Let's welcome Santa Claus together with music.

Alive Awake Alert!

The kids have had a lot of fun doing this first thing monday mornings (followed by our Good Morning Song!). We do this three times through, first wiggling our fingers, then our hands, then finally arms. It's a great energizing, tongue twisting start to our week!

ABCs

While this is a staple of all elementary music classes, our students have been having fun by playing with rhythm- singing faster and slower, and even starting to work on their Alphabet backwards!
