

NOVEMBER NEWSLETTER

WELCOME

This Month

First we want to welcome all our new families to Montessori Kid Universe. November is truly an excited month, there are so many holidays to look forward to. It's hard to believe that it is time to change the clocks as Daylight Savings Time ends. There will be lot of fun activities planned for November; as November is overflowing with abundance and gratitude. We had a great time in October. The children enjoyed the visit from the fire department. We also celebrated Fall, Yom Kippur, Pumpkins, and Halloween. We hope everyone had a great time dressing up this Halloween and trick or treating. Our focus for the first week of November will be Reptiles and Amphibians, and the class will also work on listening, and sharing. October has been an amazing and productive month and December will be equally the same!

The children will continue to work on their letter of the week, phonics, and number recognition (1 – 45). For this month in Science we will study the body anatomy

Language: Review Sight Words: Box #4, and we will continue our letter sounds blending with 2 letters to make words.

Writing: Continue to learn how to Trace the first and second letters in our names and recognize our name Print.

Math: We will review numbers learned and adding new numbers. We will add numbers and associate numbers with counters.

Science: We will kick off science learning all about the body anatomy.

Weekly Theme Highlights

November: 1 - 4th November: 14 - 18
Theme: Reptiles & Amphibians Theme: Native Americans

Theme: Children Around the World

Acknowledgement

Thank you Parents!

We want to thank all of you for sharing your children with us this year. Please continue to help your child/children with homework and lesson thought at school, as repetition is the key to success! "Repetition is the secret of perfection" – Maria Montessori

Reminder!

November 9th: Teacher Parent Conference
November 27th: School Closed for Thanksgiving
Please remember to check and send in the Blue Folder every day to school with your child.

HAPPY BIRTHDAY!

**Luciana 8, Aayan 11, Ms. Natalie 15 ,
Madison November 6th**

CHANGING WEATHER

November is here! Please be aware that we still go outside when it's cold. Please make sure that your children have coats, hats, and gloves every day. In addition, check to see that extra clothes are the right size and weather appropriate.

NOTE: This is a **NUT FREE** School please refrain from sending in nuts (any kinds of nuts) to school with your child, remember their safety comes first.

Kindergarten Program

Children 5 years and older are no longer taking naps as result of our extended day program. Starting early to prepare for kindergarten involves making sure children have preschool skills such as being able to retell a simple story and being able to recognize the letters in their name when they enter kindergarten. We feel that the year before kindergarten is the time to learn important skills, such as tracing the shapes of letters and numbers on paper, following simple instructions, recognizing the title of a book, and matching rhyming sounds. Having all of these skills are very important for future school success. When children have all these skills together they form a foundation of strong pre-reading and prewriting skills that are necessary for future work with letters and sounds in kindergarten.

Language - Skills Focus: name identification, learning the reading process, difference between letters and words, coloring, pencil grasp, phonemic awareness.

Math – We will continue to work on developing understanding of strategies for addition and subtraction. We will focus on using number line to count back to subtract. Continue recognizing number names in text and correct sequence, Count number of objects to 30, Compare numbers, Understand addition is adding to, Understand simple patterns, Identify shapes (squares, circles, triangles and rectangles etc.).

Geometry we will be working on “Pairs of line “

Science we will be learning Living and non-living things, and Parts of human body.

Social Science we will be learning about Animals and Flags of few North American countries.
